Lester Aldridge has been a proud member of [MSI Global Alliance](#) since 2002. MSI is one of the world's leading international associations, comprising over 250 independent legal and accountancy firms across more than 100 countries.

September marks MSI Month, and this year's theme is "Making September Inspiring." The theme celebrates the value of being part of a global community and inspires emerging leaders.

Founded over 30 years ago, MSI Global Alliance is renowned for connecting legal and accounting firms worldwide. Through MSI's extensive network, our clients benefit from fast, reliable access to global expertise, strengthening our international support.

In 2023 alone, we assisted clients in over 50 countries with a range of legal services, including international probate and estates, business acquisitions, family law, and specialised services in shipping, logistics, yachts and superyachts. Our partners regularly meet with MSI members around the globe, enabling us to assist our clients in achieving their personal or commercial goals.

MSI understands that a broad scope of professional advice is often required when conducting business internationally. That's why it unites member firms with extensive knowledge and experience across various disciplines. This offers clients the best of both worlds: local expertise and global reach.

Each jurisdiction is represented by a carefully selected full-service legal and accounting member firm. These firms collaborate to deliver integrated, multidisciplinary services, helping clients navigate legal and regulatory obligations while pursuing their objectives.

The Benefits of Working with MSI Member Firms

- **Seamless service**

MSI member firms provide seamless and efficient access to lawyers and accountants around the world who can support clients with pan-national, international and multinational needs.

- **Quality ensured**
Member firms are carefully vetted before joining MSI and comply with the guidelines and local regulations set by their respective governing bodies.
- **Partner-led**
Clients receive cost-effective partner-led service, with a single point of contact providing local expertise.
- **Client focus**
Member firms are independently owned and managed by partners who are committed to helping their clients solve their business challenges.
- **Breadth & Scale**
MSI has over 250 member firms in more than 100 countries, with over 17,000 professionals generating US\$1.87 billion in revenues.
- **Like-minded firms**
Member firms share an aligned set of values: professional, respectful, collaborative, responsive and ambitious.

Additionally, all MSI member firms are fluent in English, ensuring clear and effective communication.

If you would like more information, please get in touch with Partner [Grant Esterhuizen](#), who leads our relationship with MSI.
